

Telescopic width 116-176cm
White, Black or Silver with
Chrome

65cm - 125cm
100kg maximum
peak load

Our new electric height adjustable desk frame, 501-49, combines elegant design and complete flexibility. The round legs provide a contemporary design appeal and the upper telescoping bracket enables the frames width to adjust from 116cm to 176cm. Available colors include silver, black and white all with chrome inner columns. The height ranges from 65cm to 125cm with 100kg of lifting capacity. A complete desk frame all in one carton at an affordable price. The Conset way of thinking.
